

Sironta

What's new in Sironta 12.02

Release Date: February, 2012.

Don't just work. Go faster. Increase your productivity. Improve your efficiency. Share easily. Work on a intuitive way. Manage your team. Go social. Collaborate with Sironta. Enjoy it. Download Sironta 10.11 and check out what's new.

New welcome page

Once you open Sironta and log in, we welcome you. A new guiding page appears. You will have direct access to Sironta's manual, Sironta's features and Sironta's policies.

Increase your working speed

The new Sironta is faster. You will be faster. We have improved Sironta's response and fixed some bugs. The Real Time collaboration is already here.

More intuitive than ever

Sironta has a complete new user interface. A new room list display format. New user and room icons. New documents and folders organization. Sironta has even a redesigned toolbar. Easier. More intuitive.

Privacy improved

Go social. Find people using Sironta by name or by e-mail. If your partners are using Sironta, their name will be displayed. Invite them to your rooms.

Information grows

Not just with the new welcome page. Now you have info icons below each room icon. Once inside a room, you can track all users' activity.

A simpler way to sync

Sironta gives you even better ways to sync your documents and files with your partners. Just drag&drop the file inside Sironta and all your peers will see the changes. If you are working on a document, save it and it will be synchronized automatically.

Sironta is getting slim

Now Sironta is a lightweight software. Download it up to thrice as quickly, install it faster and start team collaboration as fast as you can imagine.

This is the **new Sironta**. Simply better. Download it for **free** at sironta.com
